another vigil. About 30 people are expected to attend the march, which should be peaceful.

All separating Army personnel are required to attend this briefing to receive a pre-separation briefing. Pre-registration is required. For more info call 430-4064/civ. 0711-680-4064.

IACS Registration Still Mandatory

All U.S. identification cardholders and installation pass holders and applicants in U.S. Army, Europe, must register in the Installation Access Control System. Sponsors do not need to be present for registration of family members, but ID cards are required.

Registration hours are Mondays to Fridays, 9 a.m. to 4:30 p.m. in the Installation Access Control Office, building 2307, Patch Barracks. For more info call 430-4256/civ. 0711-680-4256.

Online Finance Program Changes

Army personnel can now obtain their myPay

personal identification numbers by using a new online feature called ePIN. The online system, myPay, is operated by the Defense Finance and Accounting Service. The new feature is available to active, reserve, guard, civilians and military retirees with Army Knowledge Online accounts.

Using ePIN greatly simplifies the process of gaining access to myPay. Personnel can visit the myPay Web site, <https://myPay.dfas.mil> and click on the "New PIN" button. The system will verify the identity of the user by social security number. Users can elect delivery of the PIN by e-mail or regular mail. E-mail delivery takes place within 48 hours.

Strong encryption and secure sockets layer technology combined with user-unique access make myPay safe to use and protects personal information from unauthorized access.

Report Suspicious Packages

Community members need to be aware of suspicious mail and packages. Characteristics to look for include an unusual or unknown place of origin, no return address, an excessive amount of postage, threatening messages, an abnormal or unusual size, oily stains or powder, incorrect spelling of common words, differing return address and postmarks and peculiar odors such as almond, dried grass or peach.

Never touch or move a suspicious package or letter, and wash hands immediately if you suspect the package may be contaminated. Immediately report incidents by calling the Stuttgart Military Intelligence Office at 421-2206/civ. 0711-729-2206.

Civilian Sponsorship Program Created

A new civilian employee sponsorship program has been developed to assist managers in easing employee transition to overseas assignments. The Army has maintained a formal sponsorship program for soldiers for many years. Until now there has never been a separate program for civilians.

The new civilian program, outlined in the Military and Civilian Sponsorship regulation (AE Reg. 600-8-8) establishes formal sponsorship procedures for welcoming civilians to their overseas assignments.

The regulation establishes procedures for sponsoring civilian employees and provides a sample of the Civilian Sponsorship Plan of Action. View the regulation at www.chrma.hqusareur.army.mil and click on "What's New."

Communication Security Reminders

U.S. Army, Europe, will not process, store or send classified information on non-secure telecommunications systems. Department of Defense telecommunications systems include computer networks; fax machines, modems, telephones and radios. Use of official DoD telecommunications systems constitutes user consent to information systems security monitoring.

Commanders will ensure the following telecommunications security notification requirements are met: official DoD telephone or communications directories published in USAREUR will display the security notice on the front cover or prominently in the general information section; DD Form 2056 must be on telephones and fax machines within DoD, including secure telephones; a computer log-on security notice must be on all computer systems; and new personnel must receive a briefing on telecommunications security. For info call the 6th Area Support Group Security Office at 421-2133/civ. 0711-729-2133.
